

Prescription Rider Signature “Mandatory Generic”

The following rider is an addendum to the “Group Subscriber Certificate of Coverage” which provides for the provision of all basic health services.

Benefits

The “Benefits” section of the Group Subscriber Certificate of Coverage is amended as follows:

Outpatient Prescription Drugs or Medicines:

- This rider covers only generic prescription drugs unless there is no generic drug available within an entire class of drugs or this rider specifically states that brand name drugs as well as generic drugs of a particular type are covered. If no generic drug is available within an entire class of drugs, all brand name drugs within that class of drugs are covered.
- If a member has suffered, or is likely to suffer, adverse side effects from all of the generic drugs within a class of drugs, the Plan will approve coverage of a brand name drug within that class at the request of the member. The Plan’s decision will be subject to utilization review.
- Outpatient Food and Drug Administration (FDA) approved prescription drugs or medicines are covered when medically necessary and prescribed by a licensed Provider. Each prescription is limited to a maximum 30-day supply, with up to four refills when authorized by a licensed Provider.
- If you purchase a covered drug at a non-participating pharmacy, you must pay the retail price for the drug, and then submit a claim for reimbursement from the Plan. Reimbursement for drugs purchased at non-participating pharmacies will be limited to the Reasonable Charge for the drug minus the co-payment.

Prescription drug coverage also includes:

- Medically necessary enteral formulas for home use when prescribed by a licensed provider. The formula must have been proven effective as a disease-specific treatment regime for those individuals who are or will become malnourished or suffer from disorders, which if left untreated, cause chronic disability, mental retardation or death. This rider covers brand name and generic enteral formulas.
- Modified solid food products that are low protein, when medically necessary for certain inherited diseases of amino acids and organic metabolism.
- Hypodermic needles and syringes used to administer medications that are covered by Atlantis, when prescribed by a licensed practitioner and purchased through a Plan Pharmacy.

- For Members between the ages of twenty-one (21) and forty-four (44), brand name and generic prescription drugs approved by the federal FDA for use in the diagnosis and treatment of infertility. There is no coverage for Prescription drugs used in connection with any infertility service which is specifically excluded from coverage.
 - You have the right to file an appeal with an independent, outside review panel whenever the Plan denies coverage for prescription drugs because the drug is not considered medically necessary or is considered an experimental or investigational treatment.
